and we cannot yet he sure of the exact truth. But from such evidence as has come to our knowledge, the admiralty entertain no doubt that the German lossess are heavier than the British. not merely relatively to the strength of the two fleets but absolutely.

There seems to be the strongest ground for supposing that included in the German losses are two battle-ships, two dreadnaught battleeruisers of the most powerful type, two of the latest light cruisers, the Wiesbaden and Eibing, a light cruiser of the Rostcock type, the light cruiser Frauentlob, nine destroyers and a submarine.
